

Critical Thinking and Creative Problem Solving - 3 Days

Making Better Decisions

Course 284 Overview

- You Will Learn How To**
- Make better decisions through critical thinking and creative problem solving
 - Adapt to different thinking styles in group and team environments
 - Recognise and remove barriers to individual and group creativity to foster an innovative work environment
 - Systematically analyse a target problem
 - Present your ideas clearly and concisely for maximum stakeholder buy-in
 - Transform your creativity into practical business solutions
- Course Benefits** Successful organisations recognise that critical thinking and creative solutions to problems significantly enhance business potential. Today's decision makers must use a variety of thinking styles, methodologies and creative processes. In this course, you develop your skills as a critical thinker and problem solver. You learn to leverage your personal thinking preferences using tools and techniques based on cutting-edge technologies.
- Who Should Attend** Individuals at any level of an organisation who want to apply creativity and critical thinking skills to their decision-making process.
- Workshop Course** Through a series of interactive small-group workshops, you gain practical decision-making skills using critical thinking and creative problem-solving techniques. Workshops include:
- Profiling your personal thinking style and the styles of others
 - Identifying personal and team roadblocks to success
 - Analysing left- and right-brain characteristics
 - Leading through speaking in another style
 - Applying logical methodologies to transform a range of creative options into supportable decisions
 - Preparing a framework to present your decision
 - Developing your personal decision-making toolkit
