

Project Leadership: Building High-Performance Teams - 4 Days

Course 346 Overview

- You Will Learn How To:**
- Build and sustain high-performing project teams through enhanced leadership skills
 - Develop a strong team identity and empower others to act through vision and purpose
 - Foster positive and productive team communication and effectively manage conflict
 - Increase productivity by challenging your processes and motivating your people
 - Manage both internal and external influences that affect your team's performance
 - Maximise your project leadership abilities when you return to your organisation

Course Benefits To ensure project success, project managers must be leaders who identify and meet team needs in order to achieve project objectives. In this course, you transition to a leader who can inspire a diverse team to work together and deliver customer success. At the end of your classroom experience, you take away a project leadership best practices handbook and a personal development plan for use back at the office.

Who Should Attend Team leads, project/programme managers and anyone responsible for achieving organisational goals through teamwork. Project management experience at the level of Course 296, "Project Management: Skills for Success", or Course 340, "Project Management for Software Development", is helpful.

RealityPlus™ Throughout the course, you practise the roles of project leader and team member during an immersive case study. You develop a leadership style to build successful high-performance project teams. Experiential and PC-based activities include:

- Applying the LSM model and leadership best practices
- Distinguishing the stages of team development
- Developing team ground rules
- Maximising team participation in delivering project outcomes
- Creating team direction and purpose
- Applying conflict-style analysis with role playing to minimise project disruption
- Identifying what your project team needs to transition to high performance
- Building a personal project leadership action plan

Project Leadership: Building High-Performance Teams - 4 Days

Course 346 Outline
