

Software Engineering Curriculum Guide

Course 933
Software
Engineering
Best Practices

Systems Analysis

Course 218
User Requirements
for Software
Development

Course 1801
Modern OO
Software
Design

Course 216
UML 2
Comprehensive
Introduction

Course 424
Service-Oriented
Architecture
Introduction

Design and Programming

Course 1801
Modern OO
Software
Design

Course 316
Software Testing
Foundation
Introduction

Course 931
Agile Programming:
Principles and
Practices

Course 424
Service-Oriented
Architecture
Introduction

Course 934
Practical User
Interface Design
and Prototyping

Testing

Course 316
Software Testing
Foundation
Introduction

Course 312
Software Quality
Assurance

Course 218
User Requirements
for Software
Development

Project Management

Course 340
Project Management
for Software
Development

Course 918
Agile Project
Management
with Scrum

Course 312
Software Quality
Assurance

Course 342
Software Change,
Configuration and
Release Management

Course 218
User Requirements
for Software
Development
